

BUILD LITE

THE BODY PURPOSE-BUILT FOR THE BUILDING TRADE

BuildLite is Charlton's all-purpose truck body for the building supply industry. To be the best of its type, BuildLite combines many virtues. It's strong. It's light.

It's versatile. And it's designed to be as practical, safe and easy to use as possible. A long proven design, BuildLite can nonetheless be made bespoke to almost any individual requirement. **That's what makes it No. 1.**

BUILD LITE

REASONS WHY BUILDLITE GIVES YOU MORE:

- Suitable for all rigid chassis
- High strength and durability
- Maximum carrying capacity
- Wide range of options, including cranes
- Complete build, install, finish and paint at Charlton
- Full parts and service support
- Unrivalled value over long service life

"We choose Charlton for two main reasons. First, the BuildLite offers exceptional payload capacity and is well made and durable.

It's an ideal solution for carrying the whole range of our products, from compact and heavy items such as bagged sand and cement to others, such as plastic pipes and timber which are large and light.

We also prefer Charlton because their intelligent designs make them practical, easy to use and as safe as possible for the driver.

With Charlton, nothing is ever too much trouble. They are highly pro-active, and really do have the capability to turn ideas into reality."
