

LOAD MASTER

THE STRONGEST, MOST DURABLE BODY EVER

Loadmaster is the body that beats them all. A true leader, for nearly two decades. For strength, durability and reliability it has no equal. This is the body that handles every job you can throw at it with equal ease. For muck, for site work, for demolition and for waste, full-spec Loadmaster just goes on delivering.

Nothing else even comes close!

LOAD MASTER

A TOP SPEC FOR YEARS OF SERVICE:

- 18 years a market leader
- Designed for really arduous, heavy duty work
- 4 cornerposts for maximum rigidity
- Super tough Hardox floor
- Double skinned Hardox sides
- Single piece top rail
- Choice of top hinged, barn door or auto tailgates
- Full range of options and safety equipment

"Over the years, we've bought and sold a good many tippers and now we insist on them having a Thompsons body. A tipper with a Loadmaster on it is virtually bomb-proof - so we can buy them in, run them a few years and then sell them on with complete confidence. We know first - hand that a Loadmaster body can give you over a decade of really hard work. This means we also achieve the lowest bodywork maintenance and operating costs, as well as the highest residual value. So as they say today 'what's not to like?'"
