

LOADMASTER GRAB

THE NO 1 GRAB BODY FOR UTILITIES AND RENTALS

For tipper grab work, Loadmaster is the UK's No. 1 body. It's tough, dependable and reliable. Day in, day out, Loadmaster takes it all.

But there's more. Loadmaster Grab is also the first choice because it's typically just one part of a highly sophisticated vehicle engineering package - all supplied and fitted by Thompsons.

The result is streets ahead.

LOAD MASTER GRAB

CHOOSE LOADMASTER GRAB BECAUSE:

- Proven durability and reliability
- Reduced height headboard for easy body access
- Wide choice of cranes and ancillary items
- Full range of Health & Safety equipment
- Extensive options, including toolboxes, lockers, wacker carriers
- Engineered for practicality and crew safety
- Bespoke to individual requirements
- The complete Thompsons engineering package

"What we like about Thompsons is that they deliver a fully finished product with everything complete and the truck ready for work. These days, truck chassis are highly sophisticated items and leave very little room for the fitting of extra equipment. This is where the skill of the bodybuilder shows - Thompsons has a real ability to design and deliver a finished product where every detail and requirement has been professionally thought through and delivered."
